SOME
FEATURE
HIGHLIGHTS

Thread Notification

Know exactly which threads need attention and access them quickly and easily. No more wasted time.

Intuitive Controls

Easily organize and manage your threads and bookmark important ones for future reference.

Live Search

Search and find thread topics with results delivered in real-time using elegant javascript.

- - Build a knowledge base and organize support away from splintered email threads
- - Communicate Release Notes with ease
- - Create Documentation that is easy to use and always editable
- - Grow your product intelligently by listening to user-generated Feature Requests
